

Problems Reveal Where Work Processes Broke Down

Two Skills

Σ Institutional Knowledge
Lessons learned become best practices.

Process

Task, Job

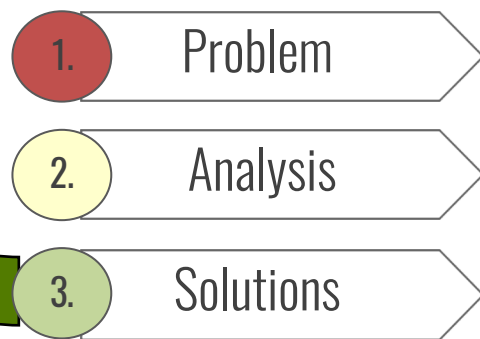

Failure, Error, Defect, Complaint,
Injury, Outage, Release

The work process defines how the organization would like to conduct its business every day.

Problem

Investigation, Root Cause Analysis

Solutions

Same

Repair, replace in-kind, respond, restore

Different

Improvement, change(s) to work process

Start simple – 5-Why

Expand as needed

Why?

The Cause Map™ diagram is a visual explanation of why the organization didn't get the desired results from its work processes.
